Fold Line

1

Find some string or ribbon, a stapler and some scissors. Make sure you string or ribbon is long, we wouldn't want you running out!

2

Follow the dotted lines with your scissors to cut the bunting out.

3

Once you've got your triangles ready, carefully place the string / ribbon on along the top fold line. Grab your stapler and secure in place. Just make sure you leave some room at the ends of the string / ribbon to hang on the wall.

4

Your bunting is ready to go! You can alternate colours or have different colour bunting strands.

5

Time to hang that beautiful bunting and fundraise!
